Feb-Apr 2021

Vision and Mission

How I make creations

VISION

Creating innovative and aesthetic creative works that deliver meaningful and impactful visual expression.

Becoming a creator who seamlessly integrates art and technology to produce inspiring and functional designs, films, and 3D models.

Producing high-quality, professional multimedia works that offer exceptional visual experiences for diverse audiences.

MISSON

Developing creative and original digital works through continuous exploration of graphic design, cinematography, and 3D modeling.

Improving the quality of each project by studying industry trends, mastering the latest tools, and applying modern design principles.

Delivering impactful visual experiences by prioritizing creativity, attention to detail, and the needs of users and clients.

My visual Language

Project Showcase

One of my best works is a poster design I created for several informational media contents at my campus, which I designed using Adobe Photoshop CS6.

Editorial as emotion

Cover E-Book Design

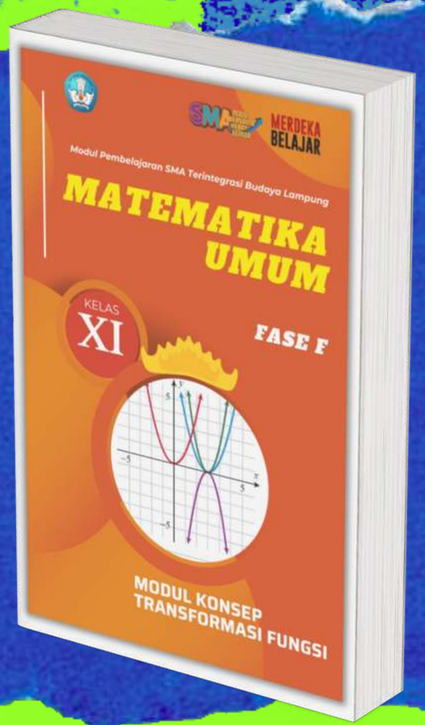

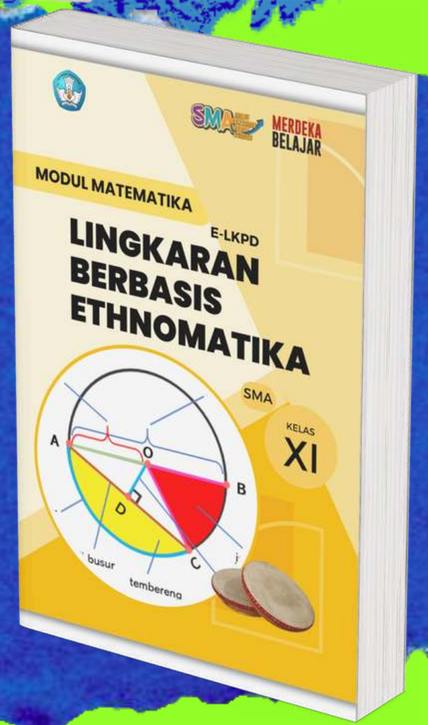

An E-Book cover I designed for a collaborative PKM research project with a lecturer, crafted using Canva, stands out as one of my most refined visual works.

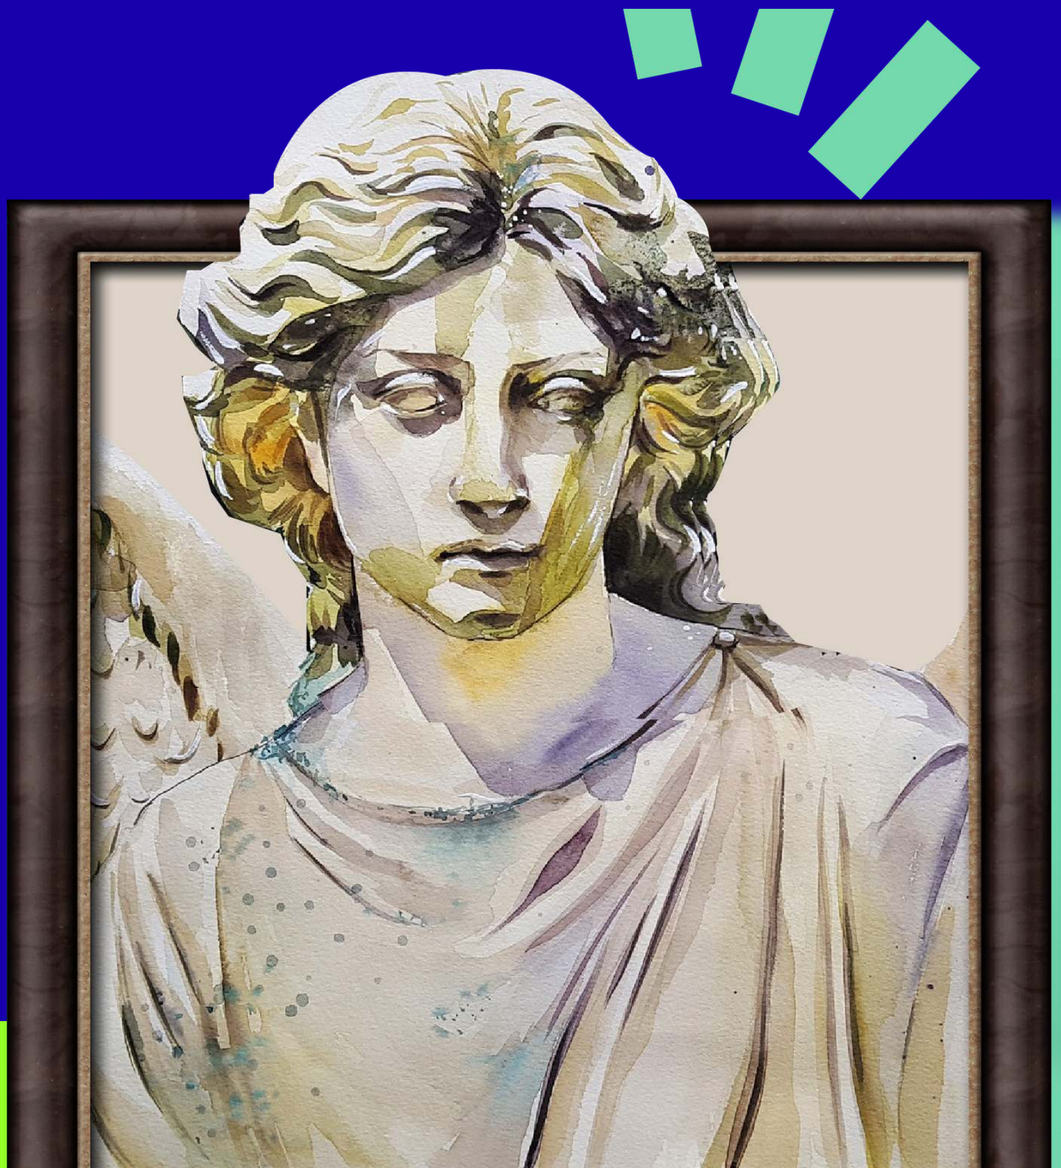

Ideas Through Posters

Designing data with depth

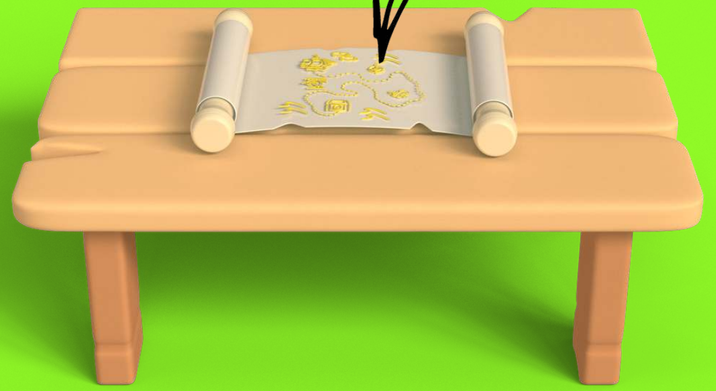

Several poster projects I have created, covering various themes ranging from math posters for student assignments to event posters for student organizations.

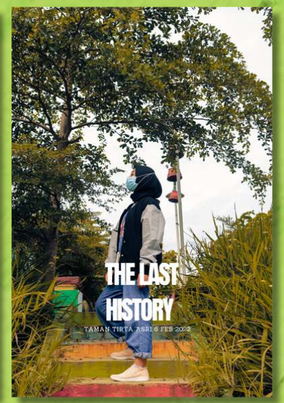

Captured Moments

I am also very passionate about photography wherever I go, I always make time to capture moments, even when I'm just walking through the market.

Open to creative photography collaboration

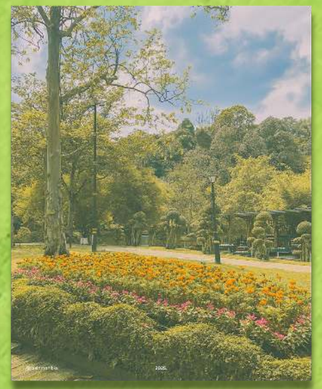

ARCHIVE

Here’s a look at my 3D modeling projects! Just a simple 3D project of a skincare jar. I focused on making it look realistic and neat. It's one of my works that I’ve published for sale online!

Ideas, Shapes, and 3D Space

Branding & Beyond

Brand Logo Design

I've also worked on some brand logos, community logos, and t-shirt designs. Some were freelance gigs, and others were projects I did for my own communities.

Logos & Threads

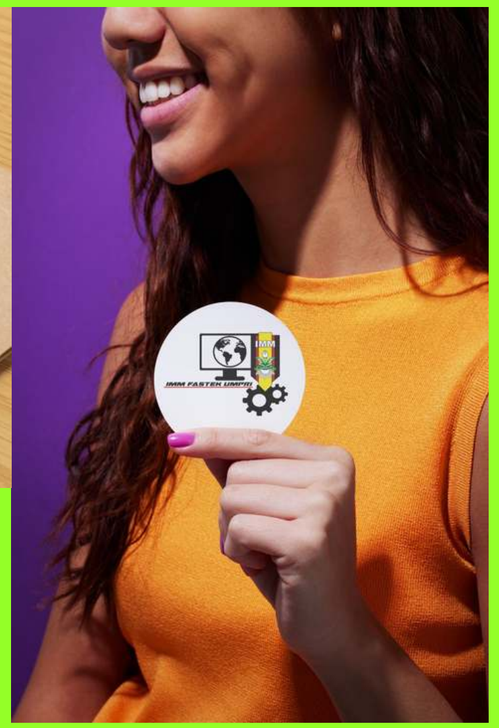

Recent Logo Drops

From Campus to Corporate

Here are some of my recent logo designs from a campus community logo to one for a construction distribution company.

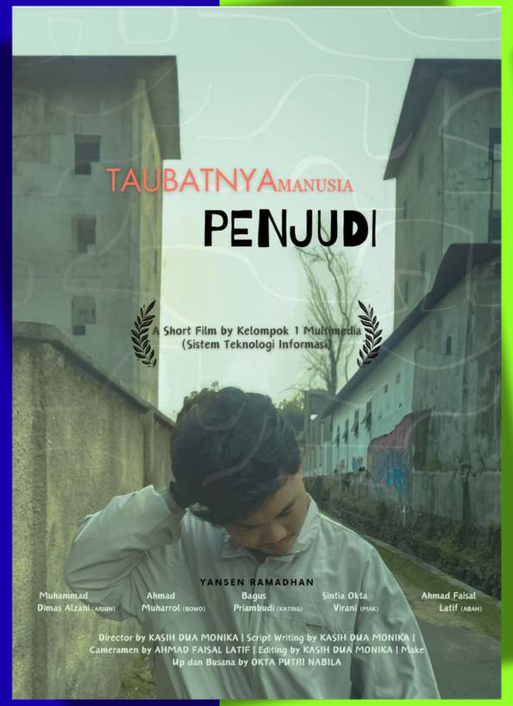

Behind the Lens

A few short films I've worked on. Even though they were small team efforts, they gave me so much new experience.
